

How do I use colour to express how I feel?

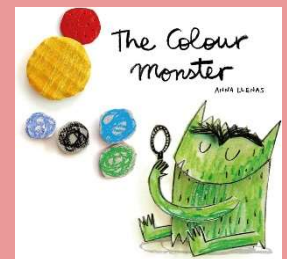

Academic:

For our topic this half term, we are going to find out how we can express ourselves through colour. This links in with how we see ourselves and how we can belong. We will be looking at a range of art and design that relate and represent our different feelings. We will be discovering how to talk about our feelings and emotions, as this is a very important life lesson.

In Maths this term, we will be looking at the number two along with lines and crosses. Victoria has a lot of fun activities planned to link in with our Maths.

For our Science and Geography, we will be looking at rainbows and how they are formed and what colours they make. We will learn about how volcanos are made and where we find them. We have some fun experiments to conduct too. In History, we will be learning all about the Chinese New Year, Valentine's day, Shrove Tuesday and many more.

Our next Talk For Writing story will be The Colour Monster. We love this book as it has a really good story line and engaging pictures. It is a book all about using different colours to express different emotions. A little monster is feeling all mixed up with his emotions that explores feelings.

Character:

We will start by recapping our carpet expectations and discuss different ways to earn house points. Last term, Owls were excellent at their fantastic walking around school and earned most of their house points from displaying it.

For our character virtues this term we be focusing on the virtue of creativity and reflection, but we will always be looking out for other virtues that are demonstrated and issuing certificates for ones that stand out.

Community:

We plan on doing several Acts of Kindness around our school and for our community, then will explore how we feel about it and how it made us feel. We are looking to invite a local artist into preschool to show the children different types of art and discover how art can be used to express feelings.

Digital and Innovation:

Owls will be continuing with our weekly Klassen sessions every Thursday. We will be looking at how we can be creative with food - using different colours and textures. Friendships cakes will be on the menu at some point too.

We will do some research about rainbows and volcanoes the get creative and make our own too. Using the colour monster as inspiration, we will be making our own sensory colour jars and filling pots with our emotions and feelings.
